DEV PATEL

Technical Associate – AI/ML | Python | Machine Learning | GenAI

Ahmedabad, Gujarat | +91-9328977322 | devpatel846211@gmail.com | linkedin.com/in/dev-patel-0a1291216 | github.com/Devpatel7777

SUMMARY

Entry-level AI/ML-focused Computer Science graduate with hands-on experience in Python, machine learning, data analysis, APIs, and Generative AI. Completed a remote Data Science internship and built practical projects involving real-world datasets, ML pipelines, Streamlit applications, RAG systems, LangChain/LangGraph agents, and API integrations. Strong analytical and problem-solving foundation with practical exposure to AI/ML tools and a willingness to learn new technologies and solve technical requirements.

TECHNICAL SKILLS

- **Programming & Querying:** Python, SQL
- **Data Visualization & BI:** Power BI (KPI Dashboards, BI Reports), Excel, Matplotlib, Seaborn
- **Data & ML: Data Cleaning, EDA, Statistical Analysis, Feature Engineering, Data Wrangling, Hypothesis Testing, Predictive Modeling**
- **Databases & Tools:** MySQL, Data Modeling, Jupyter Notebook, Google Colab, VS Code, Git, GitHub
- **Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Streamlit, LangChain, LangGraph**
- **AI / GenAI: RAG, Prompt Engineering, Google Gemini, Groq LLM, Embeddings, API Integration, Agentic AI**

PROFESSIONAL EXPERIENCE

Data Science Intern — Prodigy InfoTech (Remote) *May 2026 – Jun 2026*

Tools: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook, Git/GitHub

- Prepared and standardized 5 real-world datasets totaling 500,000+ records using Python and Pandas, building a practical foundation in data processing and analysis.
- Investigated trends, outliers, and correlations across 5 datasets through EDA and statistical analysis with NumPy and Jupyter Notebook.
- Created visual reports covering customer patterns, accident hotspots, and sentiment trends using Matplotlib and Seaborn.
- Maintained 5 project notebooks with Git/GitHub and documented analytical findings through structured, presentation-ready reports.

SELECTED PROJECTS

Sales Analytics Dashboard — GitHub *Power BI, KPI Tracking*

- Developed an interactive Power BI dashboard covering 10,000+ sales records, 4 product categories, and 8 KPIs including revenue growth, regional performance, and customer retention.
- Streamlined manual reporting by 60% through automated data refresh and supported timely stakeholder reporting.

E-Commerce Sales & Customer Analysis — GitHub *SQL, MySQL*

- Structured a 6-table MySQL database and wrote 15+ SQL queries using JOINs, subqueries, Window Functions, and CASE for customer segmentation and monthly revenue analysis.

Crop Recommendation System — GitHub *Python, Scikit-learn, Pandas, Streamlit*

- Developed an end-to-end ML pipeline using EDA, MinMaxScaler, Logistic Regression, Naive Bayes, and KNN to recommend crops across 22 categories from 7 soil and weather parameters.
- Serialized the selected model with Pickle and deployed it through Streamlit for real-time predictions.

GenAI Application Suite (RAG Chatbot & Study Buddy) — GitHub *Python, LangChain, LangGraph, Gemini, Streamlit*

- Implemented a multi-PDF RAG chatbot using LangGraph, Gemini embeddings, and an in-memory vector store to ground responses in uploaded documents.
- Developed Smart Study Buddy with Gemini to generate structured explanations, examples, 5 MCQs, and 5 interview questions for any topic.

AI Travel Planner — GitHub *Python, LangChain, Groq LLM, Serper API*

- Designed a GenAI travel-planning agent using LangChain and Groq LLM to generate personalized plans across 12+ components from user inputs.
- Integrated live Google Search through API/tool-calling to ground recommendations in current information.

AWARDS & CERTIFICATIONS

- **GenAI Powered Data Analytics Job Simulation — TATA (via Forage), Sep 2026** — View Certificate
- **Data Visualisation: Empowering Business with Effective Insights — TATA (via Forage), Aug 2026** — View Certificate
- **Data Analytics Job Simulation — Deloitte (via Forage), Jun 2026** — View Certificate
- **Certificate of Completion — Data Science Internship, Prodigy InfoTech, Jun 2026** (Outstanding Remarks) — View Certificate
- **Certificate of Excellence — Chatbot or Smart Assistant Development, thingQbator Program (Nasscom Foundation)** — View Certificate
- **Data Analytics Using Power BI Workshop — Tech Tip 24, Jun 2026** — View Certificate
- **Certificate of Participation — Python Analyzers, TechWar 2026, Red & White Skill Education, Jan 2026** — View Certificate

EDUCATION

B.Tech in Computer Science Engineering — Parul University, Vadodara, Gujarat *2022 – 2025*

Diploma in Computer Engineering — Growmore Engineering College, Himatnagar, Gujarat *2019 – 2022*
